EXPERIENCE

University of Guelph   Jan. 2019 - Present
Teaching Assistant, Software Systems Development and Integration   *Guelph, ON*
- Conducted labs and seminars to over 50 students about concepts in class.
- Consulted with students to discuss, plan, and execute design plans to produce the best full stack application, including a C back-end, HTML front-end, and a SQL database.
- Held office hours and meetings to provide additional support to students on a daily basis.

Stars Technologies Inc.   Sept. 2018 - Dec. 2018
Software Developer, Automation Validation   *Richmond Hill, ON*
- Developed, implemented, and maintained over 1000 regression tests on over 20 web services.
- Reported test cases which failed on a daily basis, then investigated and fixed bugs to allow the test case to pass.
- Used Selenium WebDriver to run automated tests on web browsers.

Deloitte - Technology Consulting   May. 2018 - Aug. 2018
Business Technology Analyst   *Ottawa, ON*
- Developed and co-engineered a SAP cloud embedded system solution presentation directed to the public sector.
- Collaborated with the Business Transformation team to design and develop over 50 processes for a large scale enterprise cloud solution.
- Developed a demo chat-bot using JavaScript and Microsoft Bot Framework to be added as a feature in the same enterprise cloud solution

GTA Home Services Inc.   May. 2014 - Aug. 2017
Senior Sales Manager   *Richmond Hill, ON*
- Interviewed, hired, and trained sales associates, improved lead generation and increasing revenues by at least 10%.
- Led and coordinated 3 sales teams through a 4-month summer sales campaign over 3 years.
- Developed up-selling tactics and taught to sales associates, increasing the average sale price by 23% from the previous year.
- Individually brought in over $40,000 in revenue for the company while developing relationships and customer loyalty with over 250 clients.
